

THE NEW PROFESSIONAL INDUSTRY STANDARD!

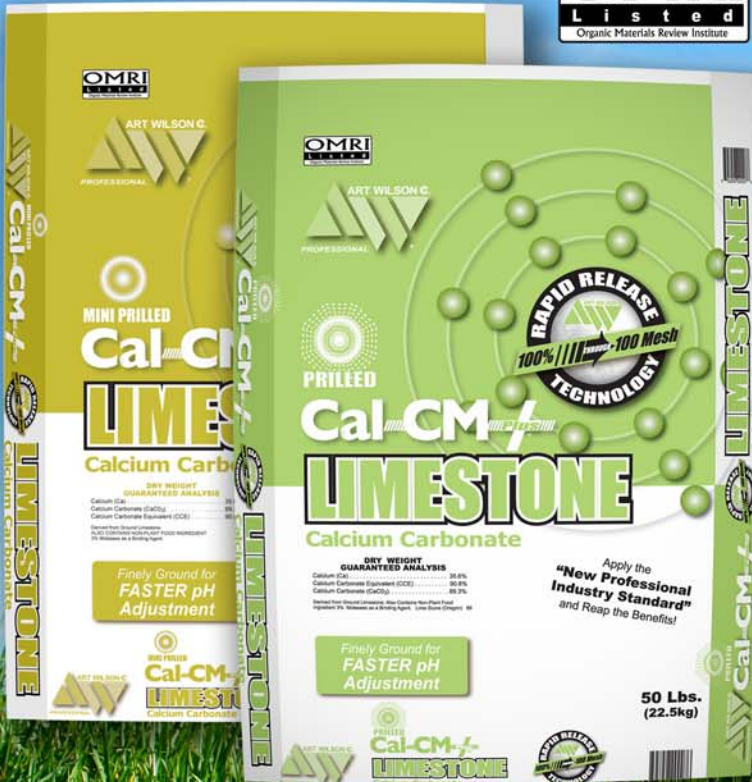

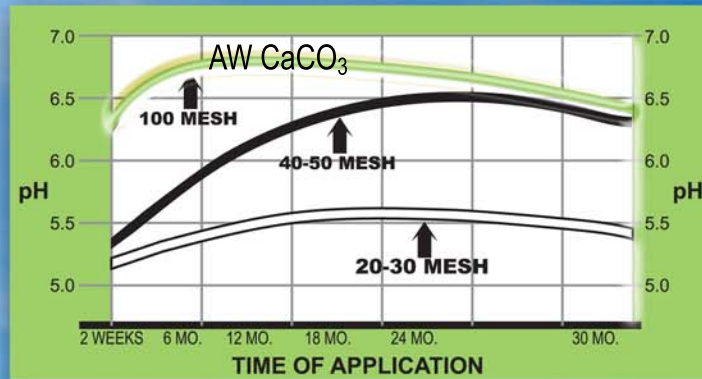

**Cal-CM PLUS**  
Concentrated Minerals

**Cal-CM Plus™ Limestone featuring Rapid-Release Technology is NOW available in Standard and Mini-Prill**

Our Rapid Release Technology process finely grinds the CaCO<sub>3</sub> to uniform particle size with 100% passing through 100 Mesh. This process allows for a greater total surface area and aids in accelerating the correction of soil pH problems and increases the availability of nutrients.

All ART WILSON prilled products feature Rapid Release Technology, OMRI Certification and Homogenous Prills with Molasses as the Binder.
